---

**Details of telephone conference**

The telephone conference was very successful when we tried it in November, and is very simple to use. Please feel free to only listen for some time if you are new to this way of holding meetings!

To join please call 0844 8360360

You will be asked for the meeting passcode which is available from [info@wiltshirewind.org.uk](mailto:info@wiltshirewind.org.uk) (or sent to you if you are a group member).

You will be asked for your name – simply say your name and you will then be put into the group.

Calls will cost each participant 2p/minute and the meeting should run for 2 hours 7pm -9pm (i.e. total £2.40 incl. VAT from a landline).  
No computer or other equipment is required.  
Please mute your phone if you are not talking.

Generally please feel free to chip in at any time, although we will aim to ask for comments regularly and pause! If the speech is unclear or quiet please say so. Rachel Ross will chair the meeting and Jack Mason will aim to deal with any technical glitches.

At about 7.05pm we will do introductions. If there are many people at the meeting (and we can tell this) then you will be asked to introduce yourself broadly in first name alphabetical order.

When you are speaking in the meeting please say who you are (at least to start with) so we all know who is talking.

We appreciate that not everybody will be able to stay on the call for the two hours so don't worry about hanging up. You may find a map of Wiltshire useful when we talk about sites.

Thanks

Wiltshire Community Wind Energy
